

## Monthly Motivation: "What are Your Skin Goals?"

It may sound like a strange question, but we know that some people are striving for flawless skin, while others simply want healthy skin. Folks with difficult chronic skin conditions may want to simply feel better! Take a moment to think about what would make you feel more comfortable in your own skin and tell us. You may define your goals and we help you achieve them.

## Medical Highlight

Summer brings cookouts, walks in the park, and occasionally poison ivy, mosquitoes, and ticks, so be ready!

Wear appropriate clothing for your activity including gloves while gardening. Check your skin & skin of family or friends for ticks when coming inside after a long walk. Consider using insect repellent (picardin lotion 10% is great) to prevent itchy bites.
