Acne Awareness

June is the month dedicated to acne awareness! Here at our practice, we absolutely love making our patients suffering with tough acne feel more comfortable in their own skin. Each regimen is customized and specific, keeping both great results and safety in mind.

Before

After

Here are some good basic ingredients to look for in over-the-counter products:

- **Benzoyl peroxide:** great antibiotic for shrinking active pimples
- **Salicylic acid:** anti-inflammatory agent
- **Retinols/Retinoids:** gently lifts blackheads (comedones) to help smooth the complexion; start slowly because they may cause dryness on normal or dry skin

Always wear sunscreen while using acne medications, even over-the-counter products, because sun sensitivity is an issue.

A visit to the dermatologist may help as we refine your clear skin strategy, so if you find that after a few months, things aren't better, contact us for help!

Focus Feature: Secret RF

Secret RF is an amazing skin tightening procedure to help reduce wrinkles, acne scars, and improve texture and hyperpigmentation. It uses microneedling and radiofrequency energy at the same time to provide powerful results safely, with little downtime. This summer we are offering Secret RF of the face with neck included at a deep discount! Imagine tightening the loose skin of the neck and improving acne scars, and fine lines of the face at the same time!

Also, includes aftercare products - one Alastin Restorative Neck Complex, Alastin Nectar and Restorative Skin Complex .
