

## MEDICAL MOMENT

Rosacea is an inflammatory condition of the skin that affects the face causing redness, bumps and swelling. Historically, it has been attributed to over-consumption of alcohol, but this is not the cause. Hot, spicy foods and beverages, sun, wind, and hot ambient temperatures exacerbate the symptoms. April is **National Rosacea Awareness Month** and treatments are available. Be sure to speak with us about it if you are concerned.

## Featured Product

One of our favorite products is the TNS Recovery Complex by Skin Medica. It is Dr. Hicks-Graham's favorite growth factor serum and is fantastic for patients with sensitive skin like rosacea providing refinement of fine lines and wrinkles and reduced inflammation while promoting smooth, healthy skin.

**This product is available at the office for BOGO (buy one get one) 50% off!**

## Get Lifted

The benefits of dermal fillers for aesthetic skin care are fantastic! Lift, plump and smooth your skin with results you get immediately. The liquid lift is promoted this month to help you get full benefit of these effective treatments. **Buy any 2 syringes of filler, get your lips done at 50% off!** Suggestions for best outcomes vary for each patient and a personalized recommendation will be made during your consultation, so book today!
