Monthly Skincare Tip: Makeup Removal Made Easy

Master the art of makeup removal with these simple steps:

Gently eliminate eye makeup using a cotton pad soaked in micellar water or petroleum jelly.

Treat your skin kindly—avoid harsh scrubbing, excessive exfoliation, or using extremely hot water. Opt for a gentle cleanse using your hands and pat dry with a soft washcloth to remove the day's residue.

Embrace fragrance-free, gentle cleansers like CeraVe Foaming Cleanser or La Roche-Posay Lipikar Gentle Foaming Moisturizing Wash for a soothing cleansing experience.

Hydration for Radiant Skin

Discover the secret to retaining your skin's natural moisture and softness with SKINVIVE. Clinical studies reveal that using SKINVIVE leads to improved skin smoothness, especially in the cheeks. Patients reported high satisfaction, noticing a radiant, hydrated, and healthy skin glow that lasts up to 6 months.
