

Body Positivity Month

We're excited to share this special edition of our newsletter in honor of **Body Positivity Month**. This month is dedicated to self-acceptance, confidence, and embracing all skin types, tones, and textures. Inside, you'll find helpful skincare guidance and trusted dermatology insights to help you feel confident in your skin.

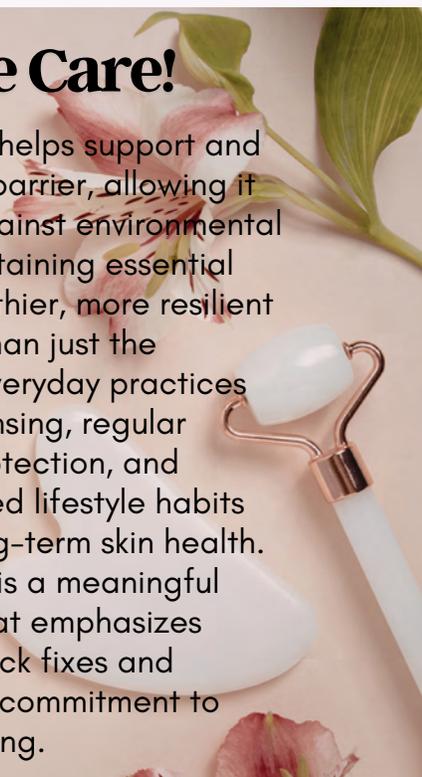

Wearing Your Heart on Your Skin

February is **Heart Health Month**, and taking care of your heart can benefit your skin, too! Healthy circulation helps deliver oxygen and nutrients to skin cells, supporting a natural glow, faster healing, and overall skin vitality. By focusing on heart-healthy habits like staying active, eating well, and managing stress, you're not just supporting your heart, you're helping your skin look and feel its best from the inside out.

Take Care!

Consistent skincare helps support and strengthen the skin barrier, allowing it to better defend against environmental stressors while maintaining essential hydration for a healthier, more resilient complexion. More than just the products you use, everyday practices such as gentle cleansing, regular moisturizing, sun protection, and maintaining balanced lifestyle habits all contribute to long-term skin health. Prioritizing skincare is a meaningful form of self-care that emphasizes consistency over quick fixes and reflects an ongoing commitment to your overall well-being.

Winter Peel Event

If you stay ready, you don't have to get ready! Now is the perfect time to refresh your skin with our February Chemical Peel Promotion.
