

Happy April!

Spring is here, and we're excited to share what's happening at Downtown Dermatology this month! From rosacea awareness to fresh seasonal skincare tips and a promotion we think you'll love — there's a lot going on. As always, thank you for trusting us with your skin health.

April is Rosacea Awareness Month

Rosacea affects more than 16 million Americans, causing redness, flushing, visible blood vessels, and bumps that can be mistaken for acne. In patients with skin of color, rosacea may present as a purple or brown discoloration rather than the classic red flush — and as a result, it is often missed or misdiagnosed. No matter your skin tone, if you've noticed persistent facial discoloration, frequent flushing, or easily irritated skin, we encourage you to come in. Relief is possible, and you don't have to just live with it.

Treating Facial Redness at Downtown Dermatology

We offer several effective, personalized approaches:

Aerolase — A gentle, powerful laser that targets redness and inflammation with minimal discomfort and no downtime. Ideal for sensitive skin and a wide range of skin types.

Excel V — A gold-standard laser for vascular concerns, precisely targeting visible blood vessels, diffuse redness, and uneven skin tone.

Prescription Options — Topical or oral medications can be an important part of managing rosacea. Our providers will recommend the right approach for your skin.

Gentle Skincare — The right daily routine makes a real difference. We can guide you toward fragrance-free, barrier-supporting products that calm sensitivity and complement your treatment plan. Less is often more!

Not sure where to start? Call us or book online — we'll find the right path forward together. 

Marvelous Monday

Our next Marvelous Monday events are April 13th & May 11th!

Enjoy special discounts on select treatments and products. Spots are limited, so book early!

You may purchase applicable products and cosmetic services at 15% off all day, virtually or in office. Great for body smoothing treatments: SKINVIVE, injectables, including Botox, all fillers, Kybella, lasers (acne scars, hair removal, brown spots, unwanted blood vessels), Hydrafacials, Microneedling, SecretRF, and more! **Call or message us to take advantage of this great promo for our loyal patients.**

Spring Skincare Tips

Spring is the perfect time to refresh your routine. A few simple reminders:

- Sunscreen, SPF 30 or higher, every single day.
- Consider a lighter moisturizer as humidity increases.
- Don't neglect your neck and chest — they show sun damage too.
- Schedule your annual skin check before summer arrives.

In the spirit of **Earth Day** (April 22nd), ask us about our favorite mineral-based sunscreens at your next visit!
